

BENYAMIN SOJDEHEI

+98 919 339 9701 | benyaminsojdehei1383@gmail.com | LinkedIn | Karaj, Iran

Professional Profile

Last-term Industrial Engineering student with research interests in business data analytics, optimization, and operations research. First author of a research paper on workforce performance improvement, with teaching experience as a Teaching Assistant and over 3 years of part-time professional experience in quality assurance and industrial engineering.

Education

Islamic Azad University, Karaj Branch

Sep 2022 – Dec 2026 (Expected)

B.Sc. in Industrial Engineering

Karaj, Iran

- **GPA:** 16.50/20 (3.30/4.00)
- **GPA of last 60 credits:** 3.82/4.00
- Thesis: *Data-Driven Analysis of Operator Performance and Productivity in Manufacturing Systems*, supervised by Dr. Mina Alavi Naeni — **Grade: 20/20 (Excellent)**.

Research Interests

- Business Data Analytics
- Optimization and Operations Research
- Data-Driven Modeling of Complex Systems
- Data-Driven Decision Making
- Supply Chain and Logistics Optimization
- Digital Transformation

Publications and Conference Presentations

- **Sojdehei, B.** *Application of Overall Labor Effectiveness (OLE) and Root Cause Analysis for Workforce Performance Improvement*. Presented (**oral**) at the 12th International Conference on Industrial Engineering and Systems (ICISE), September 2026 (**first author**).
- **Sojdehei, B.** *Optimal Operator Allocation Using Integer Programming: A Case Study in an Investment Casting Factory*. **Working paper**.

Teaching Experience

Islamic Azad University, Karaj Branch

2024 – 2026

Teaching Assistant — Systems Analysis & Principles of Management

Karaj, Iran

- Acted as the primary liaison between the instructor and **30+** students in two undergraduate courses.
- Coordinated student presentations and course-related academic communications.
- Led problem-solving sessions and delivered supplementary instruction for the **Systems Analysis** course.
- Organized an off-campus **ISO 9001** training program, managing scheduling, participant communication, and financial coordination.

Work Experience

Puladir Investment Casting Company

Mar 2026 – Present

Quality Assurance Expert

Karaj, Iran

- Designed and managed quality processes to improve workflow consistency and process standardization.
- Designed and monitored **quality KPIs**, delivering analytical reports for management review.
- Managed **NCRs** and coordinated **CAPA** through verification and closure.
- Participated in internal audits based on **ISO 9001:2015** and **IATF 16949:2016**.
- Applied structured problem-solving tools including **8D**, **Root Cause Analysis**, **Pareto Analysis**, and **Fishbone Diagrams**.

Puladir Investment Casting Company

Oct 2023 – Mar 2026

Industrial Engineering Expert

Karaj, Iran

- Developed the company's first **VBA**-based operator performance evaluation system.
- Reduced operator-related scrap and rework by an estimated **70%** through data-driven performance monitoring.
- Conducted **time studies**, established standard times, and mapped processes using **OPC** flow charts.
- Supported capacity improvement initiatives, maintaining comparable output with **30** instead of **40** operators (**25%** labor reduction).

Projects

Organizational Excellence Self-Assessment | EFQM National Model

2026

- Participated in EFQM self-assessment sessions for Mapna Group as assistant to the faculty consultant.
- Documented evidence, scoring notes, and drafted the analytical management report.

Production Line Simulation and Bottleneck Analysis | *Arena*

2025

- Built a discrete-event simulation of an industrial casting line using Arena.
- Evaluated throughput, resource utilization, and bottlenecks; graded **20/20**.

Organizational Culture and Creativity Analysis | *Robbins, Torrance*

2025

- Analyzed organizational culture and creativity survey data using the Robbins and Torrance models.
- Extracted key indicators and prepared the client management report.

Organizational Culture Questionnaire Data Analysis

2025

- Analyzed organizational culture questionnaire data for Gol Gohar Iron and Steel Development Company.
- Identified cultural patterns and compiled the analytical management report.

Technical Skills

- **Programming and Databases:** Python, SQL Server, VBA
- **Engineering Software:** Arena Simulation, Microsoft Visio, Microsoft Office
- **Quality Systems:** ISO 9001:2015, IATF 16949:2016, Internal Auditing, CAPA, NCR Management
- **Methods:** Time and Motion Study, Bottleneck Analysis, Root Cause Analysis, Pareto Analysis, Fishbone Diagram, 8D, Process Improvement

Certifications and Professional Training

- **Structure and Documentation of IATF 16949** — TUV Academy Iran-Germany, August 2026.
- **Driving Operational Performance** — Wharton School, University of Pennsylvania (Coursera), July 2026.
- **Quality Management Systems Internal Audit (ISO 9001:2015)** — TUV Academy Iran-Germany, June 2026.
- **Quality Assurance Manager** — ICAD Academy, April 2026.
- **ISO 9001:2015 Quality Management System Requirements** — BRS Training Academy, December 2025.
- **Introduction to Operations Management** — Wharton School, University of Pennsylvania (Coursera), August 2025.
- **SQL Server 2022 Database Development** — Tehran Institute of Technology, April 2025.

Languages and Test Scores

- **English:** Advanced — CEFR **C1** (Reading C1, Writing C1, Speaking C1, Listening C1)
- **Persian:** Native

Volunteer Experience

Kiana Association (Child Labor Rights Support Association)

April 2026 – Present

Volunteer Process Consultant and English Instructor

Karaj, Iran

- Advise management on process design, analysis, and improvement of the association’s core organizational workflows.
- Provide guidance and initial implementation support for an **ISO 9001**-based quality management system.
- Teach **weekly** English language classes to working children and out-of-school children.
